Are you a healer, counselor, coach or entrepreneur who wants to integrate human growth tools into their growing business?

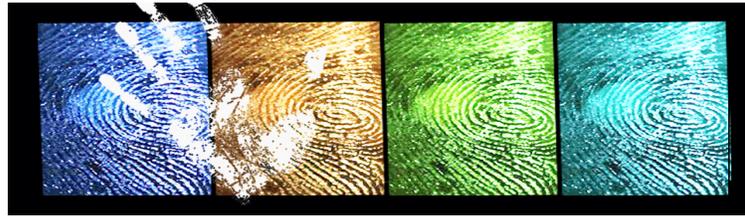

Are you someone moving forward and find yourself on the brink of change? Lost in the possibilities. Need a map to navigate the transition?

Join us to study hands as you journey to the core of your most meaningful life. Set the stage for the dance of a lifetime where your Soul Consciousness partners with your Authentic Personality. And this is just the beginning – leave with the clarity to re-energize the **LIFE YOU WANT TO WAKE UP TO!** And if you want to help others do the same, this is the course for you.

Find the source for true meaning and satisfaction. It's in your *Hands*—actually in your hands & fingerprints!

We are human and we strive. We are human and we suffer. What separates us from the animal kingdom is our ability to reflect, to hope, to imagine and to seek greater meaning. We have the will power and discernment to shape our own lives.

LIFE PURPOSE HAND ANALYSIS INTENSIVE COURSE LEVEL I – ONLINE

You are both an individual and part of a community. Are you someone who strives to feel whole and yearns to contribute meaningfully to your community? I trust if you're reading this, the answer is yes!

Isn't it true, though, at some time in your life you have struggled to find your niche, your calling, the core of your passion so that you **CAN** make a difference? And I'll bet that you know others struggling with these all too human challenges.

The key to overcoming these struggles is to understand your **Life Purpose** at the Soul level. And to learn how to live it every day. This unique Life Purpose of yours is the **single greatest treasure** you will ever have. And the map to find that treasure is in your hands – literally in your hands. Once you learn how to make the best choices based on your **unique Soul Map**, you can realize the success you want. Only then you can contribute to the success of your community.

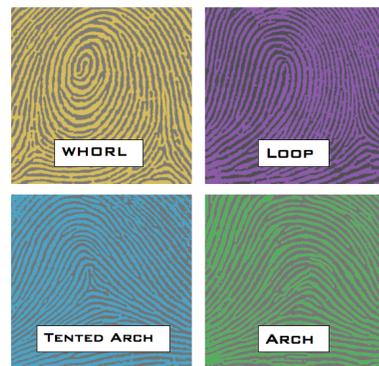

Hands – lines, palm shape, fingers and color – reflect your personality archetype, your motivations, your behaviors. How you think and your emotional style. How you get things done.

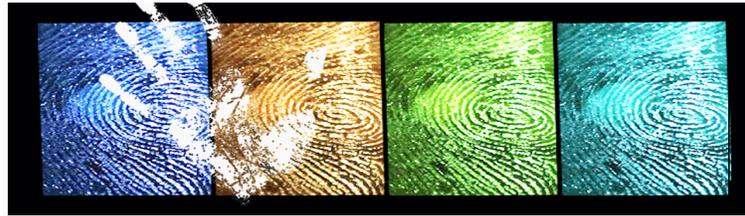

Your hands can change as you experience life.

Fingerprints contain the map of your core essence that goes beyond your personality characteristics. They never change.

Imprinted indelibly 5 months before you were born, they contain the elusive higher self, your unique purpose and potential as well the least conscious part of you, that thing that gets in the way of a life lived fully and on purpose.
